ABOUT US

Since 1980s, with experience manufacturing roll forming machines, LMS International Limited is always dedicated to providing high quality China-made machinery at competitive price with ensuring first-class after-sale service to all the customers from home and abroad. Our main products cover roll forming machine, slitting line, cut to length line, pipe making machine, duct machine, small item metal sheet machines, such as shearing machine, folding machine, roller bending machine, section bending machine, etc. Our machines are popular domestically in 30 provinces and worldwide in 61 countries, including Southeast Asia, Middle East, Europe, America, etc.

LMS is occupying 30,000 square meters in Foshan city which is the industrial center in Guangdong Province, China. The adoption of high precision CNC processing equipments is laying a foundation of quality-guaranteed machines production. A team of experienced engineers is working with PROE design software system and skilled technicians for machine production and inspection. LMS achieves ISO 9001 Quality Management Systems Certificate and enjoys high reputation in domestic and overseas markets.

LMS will constantly honor its contracts and preserve its good will, aiming to developing business relations with customers from all over the world, strengthening mutual benefits and cooperation.

Welcome customers to visit our factory!

Square Metal Ceiling Tile Machines

Metal Ceiling Tile Production Line

Perforated 600x600 Ceiling Machinery Plant

Metal Ceiling Tile Production Line Full Automatic Solution

Clip-in Ceiling

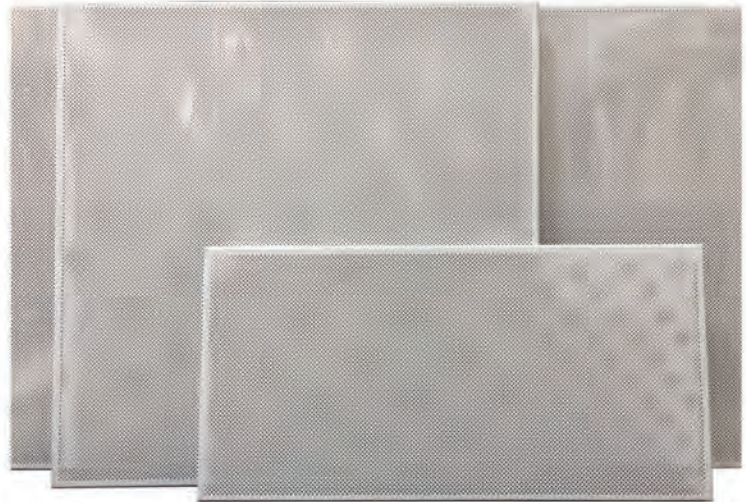

Lay-in Ceiling

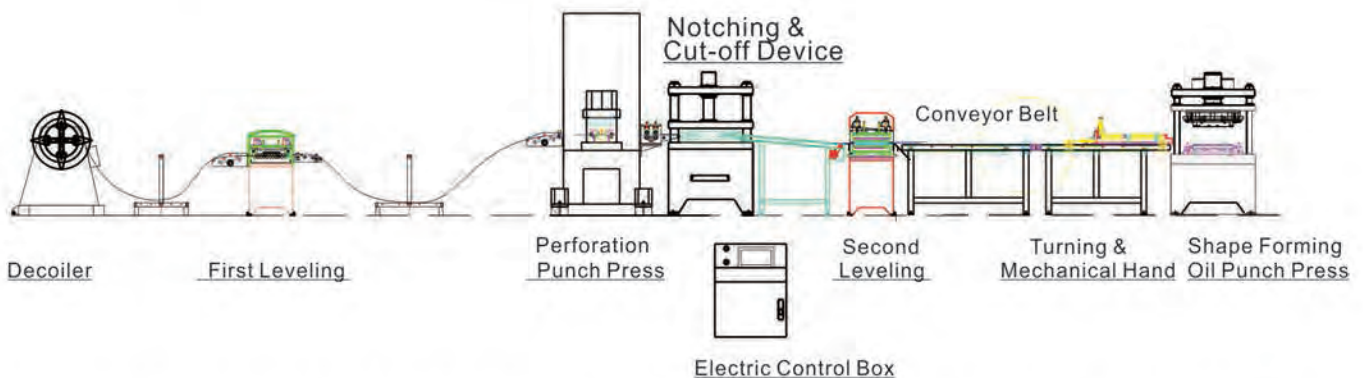

Main Technical Parameter:

Technical Items	Parameters	
Material & Thickness	0.4-1.0mm,0.4-1.5mm	Aluminum
	0.3-0.6mm	Galvanized Steel, CR Steel
Ceiling Tile Size	300X300mm,600x600mm,	
Perforation Diameter	With/Without Perforation, Perforation Hole Dia 1.0-5.0mm	
Ceiling Shape	Clip-in, Lay-in (Change forming die)	
Production Speed	6-8pcs/min	Standard:6pcs/min

600X1200mm Metal Ceiling Forming Device

600x1200mm Metal Ceiling Perforation & cut-off on the full-automatic line, forming on separate oil punch device

LAYOUT OF FULL AUTO METAL CEILING TILE PRODUCTION LINE

Optional Configuration:

Coil Film Device, Loading Car Optional
 Perforation Die: 4lines / 2 lines Optional
 Wearing Parts: Perforation Die, Notching and Cut-off Die, Forming Die

Semi Automatic Solution:

Decoiler- First Leveling-Perforation Punch Press- Notching and Cut-off- Second Leveling Shape Forming Press

Accessory:

1)Punching press:

Working pressure:

80 ton/ 100 ton/ 120 ton

Pneumatic type

Brand: YangLi Brand or Common Brand

2)Notching Press and Die

Working pressure: 40 ton

Hydraulic press type

Manual feeding ceiling panel

3) Bending Forming Press and Die

Working pressure: 120ton/230ton

Hydraulic press type , Manual feeding ceiling panel

4)Punching die;

Wire cutting processing

Suitable punching material thickness:

0.3-0.6, 0.5-0.8mm aluminum/ GI steel

Hole size: 1.8-5.0mm

Perforation hole rows: 4/ 6/ 8

5)Punching pin

Material: M42

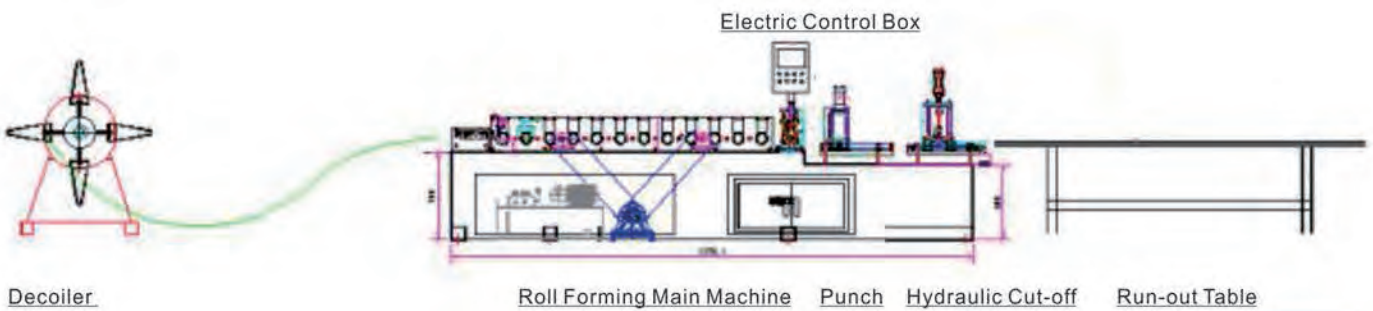

Hole diameter: 1.8mm/2.5mm/3.0mm

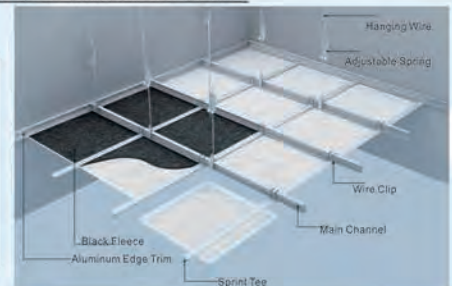

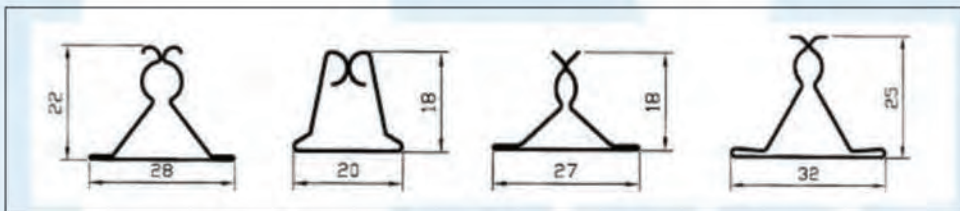

Triangle Grid Roll Forming Machine

Clip-in Metal Ceiling Matching Machine ,

Suitable material: aluminum , Thickness: 0.3-0.5mm

LAYOUT OF SPRINT TEE ROLL FORMING MACHINE

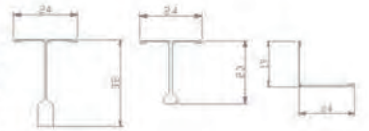

Ceiling T Grid Series Machine

Include Three Machines :

Main T, Cross T, Wall Angle

New FUT Design, Main T & Cross T one Machine

Main Grid Cross Grid Wall Angle

Flat T Bar Center Black T

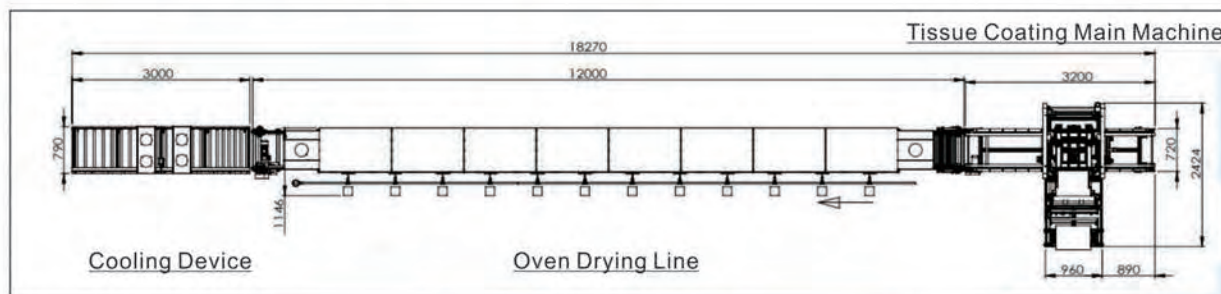

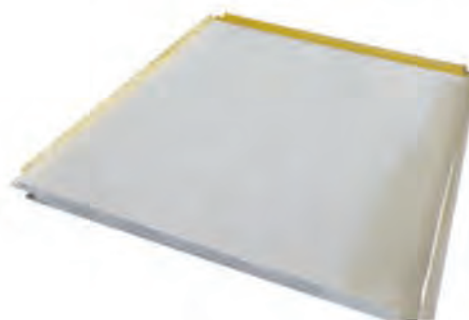

Grooved T Bar FUT T Bar

L Wall Angle W Wall Angle

Tissue Coating Machine

Ceiling tile size: 600x600 / 600x300 / 300x300mm

LAYOUT OF TISSUE GLUE COATING AND DRYING LINE

U Shape Baffle Roll Forming Machine

Perforated Baffle
Optional

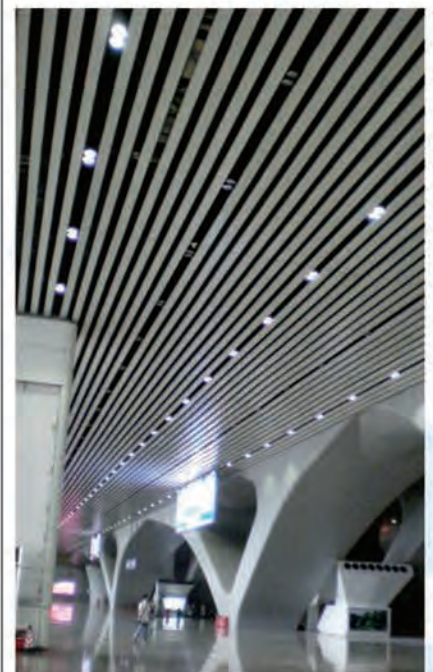

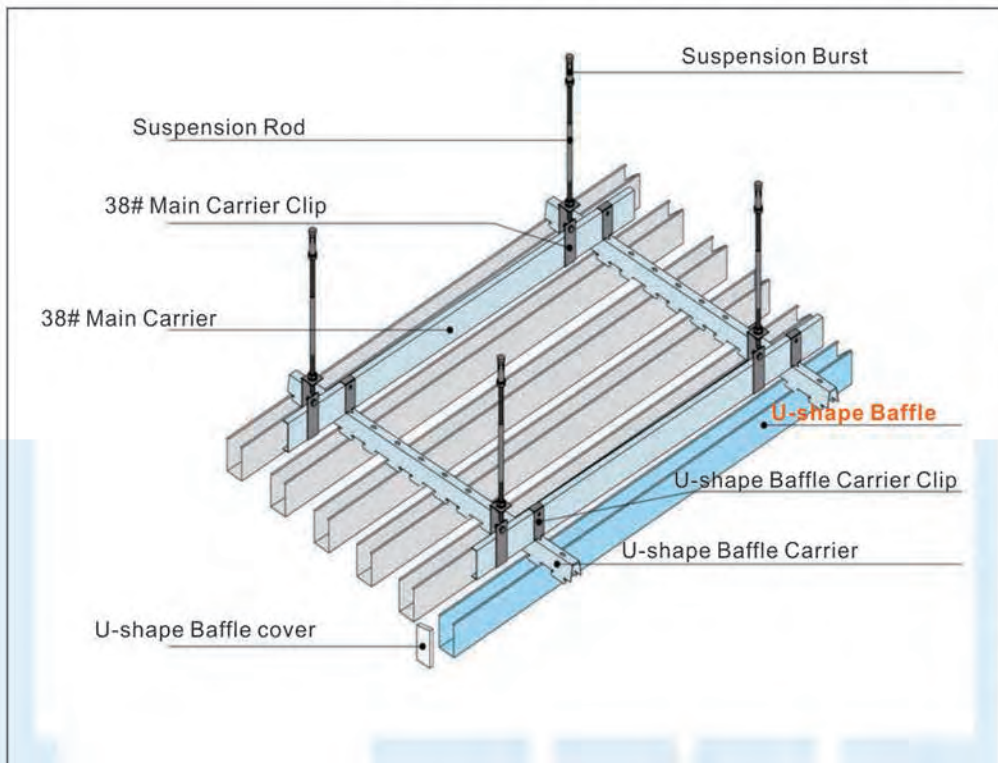

Widely Used
U-shape Baffle

9

U-SHAPE BAFFLE INSTALLATION

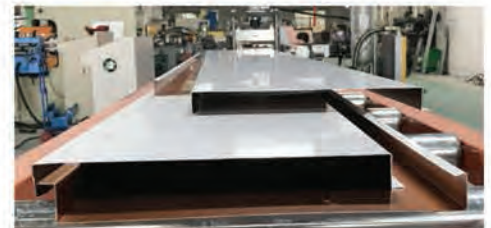

Metal Linear Strip Ceiling Machine

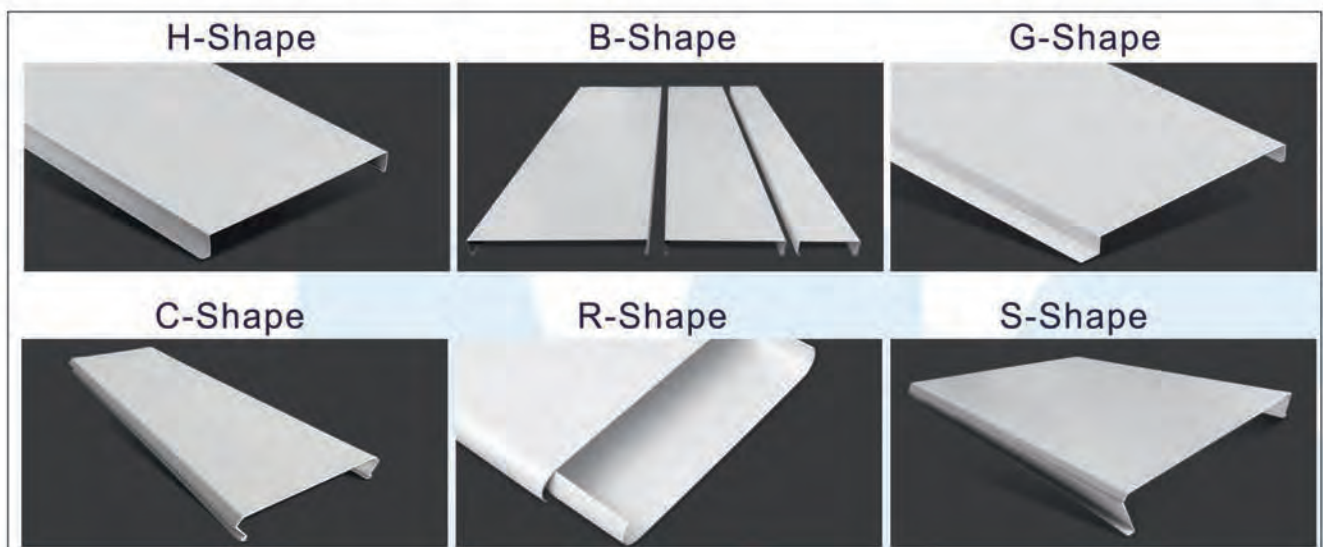

Process Flow:

Decoiler- Leveling Device- Perforation Punch (Optional)-Roll Forming Machine- Cut-off- Run-out Table
